Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claim 7:

- Line 1, after "claim" changed "2" to --1--.

NOTE: The above amendment to claim 7 corrects an obvious error with regard to the dependency of claim 7, which should claim dependency from claim 1 since claim 2 has been cancelled by the Amendment filed 03/08/07, and whose limitations have been incorporated into claim 1.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: claims 1 and 4-12 are allowed at least for the reason that the prior art of record does not teach or reasonably suggest the method for imaging a printing form using at least one controllable light source, the method comprising the steps of generating a plurality of image spots at a plurality of positions on the printing form in accordance with image

data in a bit field by controlled action of light on the printing form, and controlling an intensity of the light acting at at least one of the positions of the image spots as a function of a value of a measure for the plurality of the image spots to be generated in a surrounding area of the position, in response to exceedance of a limiting value of the measure, the intensity is increased so that a diameter of a generated printing dot is increased by a magnitude proportional to an amplitude of a relative motion between the projection point and the printing form, as set forth in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Contact Information

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai C. Pham whose telephone number is (571) 272-2260. The examiner can normally be reached on M-F 8:30AM - 5:30PM.
